

HONOR BEECHER AT BIG MEETING

Centenary of Famous Preacher
Fittingly Observed.

FEATURES OF THE PROGRAM

Celebration Held Under the Auspices of the Colored Citizens of Brooklyn Attended by Over Two Thousand—General Horatio C. King's Warm Welcome—George E. Wibecan Presides.

By N. BARNETT DODSON.
Brooklyn.—With an audience of over 2,000 persons, the one-hundredth anniversary of the birth of Henry Ward Beecher was celebrated at Plymouth church in this city on Tuesday evening, Oct. 21, under the auspices of the colored citizens of this borough. George E. Wibecan, chairman of the committee having charge of the arrangements for the celebration, presided.

The hymn, "Love Divine, All Love Excelling," a favorite of Mr. Beecher, was sung, and the invocation was given by Rev. Dr. Holland Powell. The special music for the occasion was

PROFESSOR KELLY MILLER.

sung by a choir made up of singers from the various church choirs, under the direction of Mr. P. Albert Myers. Among the anthems sung by the choir, which were also favorites of the noted preacher, were "Who Are These Arrayed in White Robes?" (Stainer), "Thou Lamb of God" (Wagner) and "O Ye That Love the Lord" (Coleridge Taylor).

General Horatio C. King, clerk of Plymouth church for many years, made the address of welcome in a brief but thrilling story of some of the historical facts connected with the church which occurred during Mr. Beecher's pastorate of forty years. General King's reference to "Pinky," the little slave girl whose freedom was bought by Plymouth church, was both interesting and pathetic. He said that the night on which "Pinky" was sold Mr. Beecher had the baskets passed to raise the \$800 to meet the requirements of the bill of sale, the church raised \$1,500, paid the slave owner, gave "Pinky" her freedom and the rest of the money to "Pinky's" mother.

The speakers of the evening were Mrs. A. W. Hunton of this city and Professor Kelly Miller, dean of the college of arts and sciences, Howard university. Mrs. Hunton reviewed the work of Beecher as a preacher, anti-slavery agitator and leader of thought in his day. She quoted many passages from his speeches against slavery and noted his deeds of kindness as a Christian warrior. The speaker paid a glowing tribute not only to Mr. Beecher, but to the members of Plymouth church and other heroes of human rights who fought that the colored race might have its freedom as God intended it should have.

Mrs. Hunton was loud in praise of the women of the race, who, she said, had stood loyally by the men, giving them encouragement and hope through the fifty years of freedom which the race is now celebrating. The progress which the colored people have made under the most cruel and unfair treatment ever meted out to a people in a civilized country called Christian, said Mrs. Hunton, fully justifies all that Mr. Beecher and men and women of his stamp did for us.

Professor Kelly Miller in his address made the application of the teachings of Mr. Beecher to the present condition of the race in a masterly and scholarly production of facts. He based his discourse on the life of Moses in dealing with the children of Israel and what would have happened had Moses yielded to the selfish notions of the leaders at the king's court instead of casting the positive side of his life with his own people.

Professor Miller emphasized the need of the right kind of education and the duty of the educated to the rank and

file of the race. This thought the speaker illustrated by calling attention to the positive and negative signs in algebra. Mr. Miller is positive in his belief that were Mr. Beecher alive the great humanitarian would fight against race segregation in all of its phases just as valiantly as he did against the injustice of human slavery.

EPOCHS IN RACE PROGRESS.

Year Book Tells of Afro-Americans' Achievements Since Emancipation.
What use has the colored race made of its fifty years of freedom? What are the signs of progress? What are the economic and social conditions that have important meaning not only to the race, but also to the white man? What educational agencies are at work for the improvement of the whole southland?

Again, what important role is the race playing in the drama of agricultural development? What does the latest federal census indicate regarding the movement of the Negro from the country to the city and the relative mortality of our people on the land and in the congested districts? What is the extent of the influence of the Negro press?

These vital questions of progress and present day welfare are strikingly answered in the "fiftieth anniversary edition" of the Negro Year Book, which has been compiled by Monroe N. Work, who has charge of research and records at Tuskegee institute.

Within 350 pages, bristling with thought provoking facts, there is told a wonderful story of the development of the colored American during fifty years of freedom—years of opportunity, struggle, perseverance and faith in God. While figures cannot adequately convey the real meaning of the advancement of a people who have suffered much and won important victories, nevertheless they do indicate, on the basis of established facts, the present economic, social and religious trend of the race.

The figures quoted in the Year Book should interest those who are giving money to our schools and those who are urging men and women to invest in character building. Publicity should be given to the facts of our progress for the benefit of the average white man, who naturally knows little about the Negro as an individual capable of development. A great many regard him as a "problem" rather than as a factor in national advancement. The facts should also be published as an inspiration to Negro youth who are only too prone to accept their parents' dictum, who too often say, "You never can be nobody, nohow."

MEDICAL ASSOCIATION TO MEET IN RALEIGH IN 1914

Old North State City Will Entertain
National Body of Physicians.

The popularity of the National Medical association was strikingly shown at the last annual meeting from the number of invitations received from various sources asking for the convention in 1914. Among the cities which sent invitations through their representatives were St. Louis, Atlanta, St. Paul and Raleigh, N. C. As the last session was held in Nashville, Tenn., the association decided to accept the invitation from Raleigh and will hold its sixteenth annual meeting in the latter city in 1914.

Dr. W. G. Alexander, secretary of the organization, in a recent open letter paid a high tribute to the local entertainment committee and to the citizens generally of Nashville for the generous hospitality shown at the meeting held in that city. Dr. Alexander also comments liberally on the work of the session performed by individuals in the various sections of the program, such as clinic, dental, surgical and literary.

The paper read by Dr. A. W. Dumas of Natchez, Miss., however, on "Vice Disease" was conceded by all to have been the most highly instructive and valuable to the profession of any yet heard on the subject. So pleased were the members that they requested the executive board to have the matter edited and printed for distribution among the laity. The surgical features of the Nashville session without exception were the best conducted since the inception of the association.

The officers for 1913-14 are: President, Dr. A. M. Brown, Birmingham, Ala.; vice president, Dr. J. M. G. Ramsey, Richmond, Va.; second vice president, Dr. E. J. LaBranch, New Orleans; treasurer, Dr. J. R. Levy, Florence, S. C.; secretary, Dr. W. G. Alexander, Orange, N. J.; assistant secretary, Dr. G. R. Ferguson, Charlottesville, Va.; dental secretary, Dr. A. T. Landers, Tuskegee, Ala.; pharmaceutical secretary, Dr. H. B. Marble, Yazoo City, Miss.; Dr. G. E. Cannon was re-elected chairman of the executive committee. The new members elected to that body were Dr. A. A. Wyche, Charlotte, N. C. (medical section), and Dr. E. W. Erwin, Memphis, Tenn. (surgical section).

A recently enacted Swedish law, which becomes effective Jan. 1, 1914, prohibits the importation of foreign goods bearing a label which gives them the appearance of having been produced or manufactured in Sweden.

BUSINESS WOMAN OF RARE ABILITY

Brief Account of Mme. F. E. Motin's Career.

HONORED BY ART SCHOOL.

Educational Work of the Founder and Principal of an Institution in St. Louis Covers Many Years of Active Service in Various Sections of the Country.

St. Louis.—In almost every avenue representing thought and advancement the race is being heard from in a tangible way. Strong men and women are becoming proficient in the arts, sciences and other branches, and here and there you will find at the head of the class a man or woman of distinctive individuality.

This time comes to the front Mme. Frances E. Motin, principal of the school of elocution and expression in this city. She is a native of Kansas and received her early education in the public schools of Topeka.

Realizing that in order to stand at the top in her line she must have sufficient training, she entered the State Normal college, Emporia, Kan. She made good use of her time there. She also attended Alberta Magnus University of Dramatic Art, Los Angeles, Cal., where she received the degree of bachelor of histrionics and is said to be the only woman of the race who has received this degree.

During the years she has been in active life, working for the uplift of members of the race, she has been un-

tiring in her efforts. She has taught at Western university, Tuskegee institute and in Topeka, Kan. Mme. Motin's last place of teaching before coming here was at Lincoln institute, Jefferson City, Mo., which position she resigned last spring in order to establish the present institution, of which she is the official head as well as founder.

Upon Mme. Motin has been conferred a number of merited honors. Several years ago she was appointed by the governors of Kansas and Missouri as delegate to the national Negro educational congress in Denver, where she greatly impressed that body by her splendid ability. The governor of Colorado was also much pleased to know of this talented woman.

The whole life of Mme. Motin has been dedicated to racial development. Her money is used to encourage the young people. She has given several gold medals in various schools and says that she will continue to do so. The last medal given by her was presented to the Y. M. C. A. in Indianapolis, Ind.

New Department at Hampton Institute.

Believing that students are best prepared to do their work in the classroom, in the shops and on the farm when they are in as good physical condition as it is possible to keep them, Hampton institute has opened a well equipped dental office in the boys' school hospital and has placed in charge of this work Dr. Norman Laster, a well known and successful dentist in Newport News, Va.

Young Men's Christian Association.
The success of the Carlton avenue branch of the Young Men's Christian association in Brooklyn is cause for genuine satisfaction. Under the able and conservative administration of Secretary Rufus M. Meroney the educational and religious work for the winter will be very large and helpful.

RESEARCH SOCIETY MEETS.

Yonkers Organization Hears Note of African Dignity of Race.

In the course of an able and scholarly address before the members and friends of the Negro Society for Historical Research, Yonkers, N. Y., recently, Dr. E. G. Granville Sutton of Sierra Leone, West Africa, spoke on the subject "The Dignity of Being a Negro." After telling his hearers what the early Africans had contributed to civilization and religion he mentioned some useful discoveries and inventions made by Negroes and appropriated by the stronger race which have been of lasting benefit to the world.

Among the earliest and most useful of these was the common sewing needle, which he said was invented by a Spanish Negro in 1545 and was exposed for sale at Cheapside, in London. The inventor refused to divulge his secret. The collapsible umbrella and the detachable or bachelors' button are the inventions of black men.

He said our Thanksgiving day originated in New England; that the whites there were on the point of starving to death when Negro slaves were brought there to till their fields and make their crops. The timely arrival of these blacks saved them, and in celebration of the event they instituted Thanksgiving day. A Negro physician, an African, John T. Perry, effected a cure of the first case of pellagra in this country, a disease which has caused so much fear among the white people of the southern states, who laugh at the ideas of white physicians regarding it.

The secret of its cure and of tuberculosis is well known to African medical men, said Dr. Sutton.

Mr. Perry had been offered by interested persons in Washington \$2,000 for his formula, but he declined the offer as too small. He wanted \$2,000,000 and a half interest in the company that manufactured it. While his proposition was being considered he died and with him his secret.

But Africans have a native school of medicine and can cure any of the so called incurable diseases. They do not divulge to white men their medical secrets, though for years white men have tried to find them out. He made interesting allusion to the Puro Society for Men and the Bunda Society for Women and briefly sketched the objects for which they are formed. "They are," he said, "as old as the history of Africa."

"You Americans are studying eugenics today with considerable zeal, some of it misplaced. The Africans for more than a thousand years have known all about this important science. You don't know everything in America. Africa can still teach you much," said Dr. The speaker said many more things of equal importance and interest which it is not prudent to discuss here. The dignity of being a Negro was demonstrated by many historical citations and proofs of the Negro's service to civilization and the world. The only people in America who discredit the Negro are the Negroes who do not know the Negro.

ORGANIZATION SOCIETY TO HOLD MEETING IN RICHMOND

Promoters Eager to Perfect Better
School and Health Conditions.

Richmond, Va.—Governor William Hodges Maun and Dr. Booker T. Washington will speak in the Richmond city auditorium on the night of Nov. 7 before the Negro Organization Society of Virginia at its first annual meeting. "Better schools, better health, better homes, better farms"—this is the motto of the organization which aims to federate all interests that tend to promote the welfare of the masses.

An interesting program has been arranged for Nov. 6 and 7. Reports will be presented on co-operation with the Virginia state health department in reaching the masses of our people in the rural districts and in the cities; health campaigns waged through four counties of Virginia; popular education for better health and improvement in rural schools.

Lectures will also be given on co-operation in agriculture and co-operation in business. A report on the recent southern sociological congress will also be presented. Delegates from many organizations will be present to represent the health and educational interests of religious bodies, Sunday schools, secret societies and civic associations.

All organizations are eligible to membership in the Organization society and may send delegates to the Richmond meeting. Robert R. Moton, commandant of Hampton institute, is the president. John M. Gandy of the State Normal school at Petersburg is the executive secretary. Delegates who expect to attend the meeting are asked to notify (not later than Nov. 1) Professor Gandy or Mrs. Maggie L. Walker, St. Luke's bank, Richmond, or Mrs. O. B. Stokes, St. John street, Richmond.

The Virginia State Negro Business league will hold its annual meeting in connection with the Negro Organization society. The officers of the State Business league are working among the local leagues to have a large attendance at the forthcoming meeting.

IMPORTANCE OF LAND MOVEMENT

Former Naval Auditor Makes
Some Practical Suggestions.

MERIT IN PLAN OUTLINED.

Agitation of Soil Ownership is Not the
Special Propaganda of Any One Individual or Race, but the Common
Privilege of All—South Has Abundance of Idle Territory.

By RALPH W. TYLER.

Owensboro, Ky.—The "back to the farm" movement, which a few years ago was the pet hobby of Dr. Booker T. Washington, has now become a veritable slogan with the whites of this country. Quite recently prominent white men, members of boards of trade and chambers of commerce in the large cities of the south, appeared in Washington as a committee and petitioned the commissioner of immigration to turn the tide of foreign immigration arriving daily in New York from the great west to the southeastern states.

This indicates that the whites want the vast area of unimproved farm lands in that section developed and they welcome the Italian, the Greek, Russian Jew, Slav, Pole or Hungarian immigrant to the south for that purpose. Once the tide of foreign immigration is diverted to the fertile southeast it will continue until all of the more than 78,000,000 acres of unimproved farm lands in that section are taken up and made to enrich the tillers and to supply the country with farm products, the insufficiency of which at present contributes to the high cost of living.

What are termed the southeastern states include Alabama, Florida, Kentucky, Mississippi, North and South Carolina, Georgia, Tennessee and Virginia, states whose colored population at present is 5,500,000, nearly two-thirds of the entire colored population of the country. Of this 5,500,000 in the southeastern states fully one-half is crowded into congested quarters of the large cities, where they must battle fiercely amid insanitary surroundings and prejudiced labor unions for an existence which promises no roseate future.

"Back to the farm" is no longer the exclusive propaganda of Dr. Washington. Every state in the Union is emphasizing it by maintaining one or more splendidly equipped agricultural colleges, in which scientific farming is taught the young white men and women. It is emphasized by big white syndicates buying up farm acreage for speculation, in anticipation of the realization of this assured "back to the farm" movement. Alabama has 11,038,731 acres of unimproved farm lands, Florida 3,448,130 acres, Georgia 14,655,396 acres, Kentucky 7,834,596 acres, Mississippi 1,702,373 acres, North Carolina 13,626,073 acres, South Carolina 7,414,029 acres, Tennessee 9,151,173 acres and Virginia 9,625,578 acres.

There is now a splendid opportunity for a co-operative movement among our people which will have for its purpose the purchasing of much of these more than 78,000,000 acres of unimproved farm lands in the southeast and to convert them into productive fields of truck crops, waving grain, stock ranches or rice and cotton plantations. Mississippi's soil will yield 121 bushels of corn to the acre, and South Carolina's soil has yielded over 200 bushels of this much demanded grain to the acre. Wheat, long considered the monopoly of the north and west, has been grown in Georgia and North Carolina, with a yield of fifty bushels to the acre, and in the southeast also, another crop long considered exclusively indigenous to the plains of the north and west, have yielded sixty bushels and more to the acre.

A false notion, too long holding him in fetters, has caused the Negro to regard the farm as the rightful sphere of the untutored and the crowded city the proper haven for those who have secured a smattering of the dead languages and a faint understanding of the Pythagorean theorem. The result has been that into the crowded cities Negroes have rushed only to find in most instances they can hardly have elbow room; that race prejudice increases in proportion as their numbers increase, and that the dreamed of future of wealth and ease is, after all, but a mirage which leads on to a maelstrom in which many ultimately founder.

The opportunity of a lifetime for co-operative purchase of much of these more than 78,000,000 acres of unimproved fertile farm lands of the southeastern states knocks loudly at the door of the race. It remains to be seen whether it will throw wide the door and admit this golden opportunity or lethargically dream on only to awake

MAKING GOOD IN NEW FIELD.

Fine Record of Miss E. Leola Hudson,
Winner of Chamberlin Prizes.

Brooklyn, N. Y.—Making good in a northern school, surrounded by new conditions, new faces and in a new line of work, is not always an easy task. But this is being accomplished by Miss E. Leola Hudson, the daughter of Professor and Mrs. R. B. Hudson of Selma, Ala., who is here attending Pratt institute. Miss Hudson is perhaps one of the most remarkable students that have entered Pratt, notwithstanding a long list of exceptional talent that has been found from year to year in this institution.

While she comes from distinguished parentage, her father being secretary of the great national Baptist convention, secretary of the Baptist state convention of Alabama, treasurer of the endowment board of Odd Fellows of the state of Alabama and one of the secretaries of the Sunday school

congress and for the past twenty-three years principal of the Clark high school of Selma, Miss Hudson has individualities and accomplishments that are distinctively her own.

She finished the normal course at Selma university in 1908 and won high honors as valedictorian in a class of fifty-two. After leaving this institution she went to Atlanta, Ga., and finished the college preparatory at Spelman seminary in 1909. She graduated with honors from the college department at Moorehouse college, formerly Atlanta Baptist college, Atlanta, Ga., from which she received a scholarship prize.

She also finished from the domestic science department at Spelman seminary. She will specialize in household science, in order that she may be more thoroughly prepared. Miss Hudson preferred to do this before taking up her profession of teaching.

For two years in succession, 1912 and 1913, she won the Chamberlain Scriptural contest prize at Spelman. Miss Hudson has been offered some splendid positions already, but will remain here in Brooklyn to finish the prescribed course and then go back south, where she expects to render service to her people.

CRIME IN PORTLAND, ORE.

The Advocate Finds That Afro-Americans Are Not the Perpetrators.

The Portland (Ore.) Advocate in its issue of Oct. 11, speaking of crime in the city of Portland, says editorially: "A wave of crime has struck Portland the like of which outrivals anything for downright brutality in its history. School children are being assaulted, women's money purses and rings wrenched from their hands and the victims roughly handled, and men are being beaten and robbed upon the streets and in some instances in their own homes. And the perpetrators of these outrages have not been apprehended."

"The police force and the newspapers have done their very best to fasten the crimes on colored men, but after an investigation they have realized their mistake and that the deeds are the work of white men."

"Even now as we go to press we learn that a white man was snatched from his automobile and robbed of valuable papers and still no clew of the bold thief. It appears that the whole police force and detective force are powerless to check the crime wave."

Concord Literary Circle Reopens.

The Concord Literary circle, in Brooklyn, has reopened for the fall. The young people are taking a lively interest in the work. President Walter K. Taylor is to be congratulated on having for the opening meeting the Rev. E. G. Granville Sutton, pastor of the Liberal Christian church, Sierra Leone, West Africa, as the chief speaker. The Rev. Mr. Sutton is a charming speaker. His address was highly instructive. Mr. Sutton is in the United States on a visit, studying conditions among colored Americans so as to be better prepared to carry on the religious, educational and industrial work in which he is engaged among the people of his native land.

Carita Day, the beautiful and talented vaudeville actress, well remembered here as the leading lady with the Ernest Hogan's Rufus Rastus Company has opened a millinery and fine lingerie shop at Chicago in State street, handling the latest Parisian fashions and is having great success. Miss Day, however will not give up her stage work. Other actresses who are making good in this same line of work are Odessa Warren in New York City and Ollie Burgoyne in St. Petersburg, Russia.

Is it not strange that so many women find it worth while to hire servants, so they can rush off to make the money to pay them, or if they do not hire servants, go into a lonely house and prepare an indigestible meal, the result of tired brains and hands. Would it be best to stay at home and do your own work? Women who are home-makers are getting fewer each day. They are becoming bread winners. The romance and sentiment will soon be lost entirely and the about-to-be-married couples will discuss expenses with mutual interest, you pay the rent and I'll pay the grocery bill. A business partnership. And who is to blame for this condition?

An Autumn Party.

An Autumn Party will be given by the Woman's Club Tuesday night, November 11, at the residence of Mrs. James Shelton, 516 North California street. Admission 10 cents. Refreshments free.

HINTS FOR THE
BUSY HOUSEWIFEHomemade Plate Rack For
the Dining Room.

The plate rack illustrated herewith is built on the following dimensions: Its length is twenty-eight inches, height of side thirty-two inches, space between bottom and middle shelf twelve inches, between middle and top ten inches. A strip an inch wide is placed in front of each shelf and about two inches above the shelf itself and on the back, six inches above the lower two shelves, similar strips are placed for the plates to rest against. About four inches above the top shelf a two inch strip is placed as the support for the frame. Through this three long screws are driven preferably into the scantlings of the wall; all the strips are let into the side frames and so are the shelves and then screwed. Each shelf is provided with several grooves an inch apart in which the plates may rest to prevent slipping. At each side and on the bottom shelf several hooks are placed for hanging cups and little pitchers.

Mutton With Quinces.

For this recipe use any cut of mutton suitable for stewing and twice its weight of raw quinces. Cut the meat into small pieces and brown them either in mutton fat or butter. Cover with boiling water, add salt and cook slowly until tender. Pare and quarter the quinces and cook them in a small amount of water until tender. Combine the meat with the fruit and cook slowly for ten or fifteen minutes. Serve with rice. Variety may be obtained by making a brown gravy with the fat in which the meat is fried and cooking the meat in that. In the above recipe sour apples may be substituted for quinces.

Haricot of Mutton.

Two tablespoonfuls butter or drippings, two tablespoonfuls chopped onions, one and one-half pounds lean mutton cut into two inch pieces, two cupfuls water, salt and pepper, lima beans, chopped parsley. Fry the onions in the butter, remove the onions, add the meat and brown. Cover with water and cook until the meat is tender. Serve with a border of lima beans, seasoned with salt, pepper, butter and a little chopped parsley. Fresh, canned, dried or evaporated lima beans may be used in making this dish.

Cranberry Pie.

Mix together one cupful of sugar, two level tablespoonfuls of cornstarch and one saltspoonful of salt, add one cupful of boiling water, stir and cook for five minutes, then add one and a half cupfuls of chopped cranberries and one-half cupful of chopped and seeded raisins and let simmer fifteen minutes. Turn into a baked pastry shell, cover with the white of one egg beaten until stiff and sweetened with one tablespoonful of sugar and brown lightly in the oven.

Cream Whipping Hints.

Cream to be whipped should be one day old. No sugar should be added either before or after it is beaten. The sweetening should be in the pudding or cake with which it is served. A tablespoonful of gelatin dissolved in a tablespoonful of hot water and added to two cupfuls of thin cream will make it whip successfully, or add the white of an egg, or a pinch of salt before beating.

Icing For Cake.

When in a hurry for your cake, make the icing this way: To the white of an unbeaten egg add one and a quarter cupfuls of pulverized sugar and stir until smooth, and add three drops of rosewater, ten of vanilla and the juice of half a lemon. This icing will set at once become very white and will harden in five or six minutes.

Boning a Boiled Ham.

Before a boiled ham has had a chance to cool carefully cut out the bone, then fill the hollow left by the bone with trimmings made by the cutting. Tie the whole up tight and let it grow cold. It then slices readily and without the waste and annoyance occasioned by cutting around the bone.

Softening Putty.

If a pane of glass has to be removed cover the putty which holds it in place with soft soap, leaving it on for some hours. The putty will then become soft and can be scraped away and the glass taken out easily.

Rancid Butter.

To sweeten rancid butter melt the butter, skim it, then place a piece of light brown toast in it, and in a few minutes the toast will have absorbed the unpleasant taste and smell.

IN THE WORLD OF
SPORTMarshall of Penn a Reliable
Quarter.

Photo by American Press Association.

Many of the colleges are bawling the lack of an able quarterback, but the University of Pennsylvania has no trouble in this respect with the agile field general Marshall to run the Quaker outfit.

Marshall is a heady, versatile player and gets into every play, and the coaches say that he will play in all the big games.

Mr. L. J. Bush, Pitcher.

Pitcher Leslie Joseph Bush of the Philadelphia Athletics, who defeated the Giants in one of the world's series games, a young man who might have made a Babe Adams reputation for himself in the last world's series had the series been longer, pitched only five full games for the Mackmen last season, being pulled off the rubber no less than fifteen times. He participated in portions of thirty-four contests and all told labored on the mound in 199 innings, or about twenty-two full games. The man from Brainard, Minn., was not the wildest flogger in the American league by any means, for he passed only sixty-six players and winged only five.

The greatest number of passes Bush handed out in one game was four, and in two of the complete contests he pitched he had perfect command. Bush went the route three times against the Naps, once against the Tigers and once against the Browns.

On Hoppe's Trail.

Calvin Demarest, the Chicago cueist, is anxious to regain the 182 balk line championship, which he held a few years ago. Demarest is after Willie Hoppe of New York, the present titleholder, for a match and hopes to get into action with the champion some time in December. If Hoppe agrees to meet Demarest the match will probably be for \$1,000. Hoppe, being the champion, has the right to name the place, but undoubtedly if he agrees to meet Demarest he will name New York as the battleground.

Demarest won the title in New York four years ago, but lost it the following year to Harry P. Cline of Philadelphia in Chicago. On May 20, 1910, in New York Hoppe defeated Cline and has held the title ever since. In 1912 Demarest challenged Hoppe, but lost the match by a score of 500 to 400 in New York. Many billiard fans consider Demarest Hoppe's most dangerous rival.

Hedgepeth Can't Play Football.

Clark Griffith, manager of the Washington American baseball team, has notified his recruit pitcher, Harry Hedgepeth, that he cannot play football this fall. Hedgepeth expected to play with the Virginia Medical school eleven recently against Georgetown. When he heard of the news Griffith sent a wire to the former Pittsburgh star that he will have to keep out of football if he wants to stick in the big league. Last season Hedgepeth was a star tackle on the Medical eleven.

Stand Pat on Officials.

It's a case of stand pat on the football official question for Yale, Harvard and Princeton. The same men who officiated in the Harvard-Yale and Yale-Princeton games a year ago will work again this year. William Langford, the former Trinity captain, will referee; Neil Snow, recently of Michigan, will umpire, and Dave Fultz, the Brown university all around athlete and later major league ball player, will act as linesman.

Says McCormick Signed.

It was reported recently that Harold McCormick, who has been the New York Giants' pinch hitter for several seasons, has signed a contract to manage the Chattanooga club of the Southern league next season. According to President O. B. Andrews of the club, McCormick came to terms and signed the contract tendered him.

Program by the Boys' Club Orchestra at New Bethel

The musical concert by the Boys' Club Orchestra of North Indianapolis to be given at New Bethel Baptist church next Friday night Nov. 7th promises to be an exceptionally fine affair, and the music loving people are of a genuine treat. Prospects indicate that there will be a full house. This Orchestra has been heard before in Indianapolis, and everyone who has witnessed the program praises it very highly. It will be remembered they played in Muncie, Ind., last June and they received an ovation. The Elam Trio will assist the Orchestra and Ralph Jones, the young violinist of whom the people of Indianapolis are justly proud, will render one of his classic selections. Mr. Elam the leading colored Cello player in the city, will be heard in solo. Mrs. W. E. Grubbs the talented soprano soloist, will sing the Ave Maria in the original Latin. Wallace Woolfolk Supt. of the Sunday School, under whose direction the concert will be given, will also appear in one of his d-lightful tenor solos.

Last week notwithstanding the inclement weather, we plodded right on with our revival. Sunday was a high day in Zion. We worshipped with Rev. H. P. Parker of the South Side in the afternoon. The services were good. Our pastor preached. In the evening we worshipped at home with good results.

Last Wednesday morning marked the beginning of the District S. S. Convention, Quarterly Christian Endeavor, Minister's Conference and the Conference Proper convened with St. John Free Baptist church in the Brightwood Division. We are in attendance representatively. An interesting and profitable session is being held. Rev. T. J. Boone of Mt. Vernon, Ind., is Moderator and Rev. M. Turner of this city clerk.

We hope to have services at our church tomorrow. A minister from out of the city will most likely preach for us. Those who are not at the conference are requested to worship with us at home.

NOTABLES IN
THE LIMELIGHTHenry D. Clayton, Congress-
man From Alabama.

© by American Press Association.

Representative Henry D. Clayton of Alabama, who not long ago aspired to represent that commonwealth in the United States senate, has accepted President Wilson's suggestion that he remain in the house and help the administration carry through its anti-trust program. In furtherance of this policy, he sent his resignation as senatorial appointee for the unexpired term of the late Senator Johnston. His resignation was sent to Governor O'Neal, who appointed him several weeks ago. The senate had not acted on Mr. Clayton's credentials, and the seat has remained vacant, there being doubt as to the right of Governor O'Neal to make an appointment under the new district elections amendment to the constitution.

A native of Alabama, a lawyer by profession and fifty-six years old, Mr. Clayton is serving his ninth term as a member of the national house of representatives. He has been a member of the judiciary committee for many years and is now its chairman. He came into prominence at the Democratic convention of 1896, when he fought the nomination of David B. Hill for temporary chairman and helped bring about the condition that resulted in the choice of William Jennings Bryan as candidate for the presidency. Mr. Clayton is a strict party man and has been a member of the national Democratic committee since 1888.

Income Tax Collector.

According to treasury experts about 425,000 American citizens are amenable to taxation under the new income tax law. The first returns to the internal revenue collectors do not have to be made until March 1, 1914, but when the returns are made they will cover the incomes of citizens from March 1, 1913. son with an income above \$4,000 is expected to report his or her receipts in detail to the government agents on March 1 of each year. It is estimated that the tax will produce \$82,298,000.

The garnering of this vast sum will be under the supervision of Mr. L. F. Speer of Bangor, Pa., who has been appointed deputy commissioner of internal revenue under the provision of the new tariff law providing for such an official to take charge of the collection of the new income tax. Mr. Speer's competency to handle the job is unquestioned, he having had twenty-two years' experience in the internal revenue department. Four years ago, when the corporation tax became effective through the enactment of the Payne tariff law, he was placed in charge of the collection of corporation taxes.

FOR THE CHILDREN MASTERWORKMAN
IN GREAT CAUSE

Basket Toss.

Select a number of small fruit baskets, all the same size, and have a box of checkers handy. Suppose you have five baskets. On the bottom of one mark 20, on another 15, on two 5, and on the other 0. Place the baskets in a row on the floor. Choose sides, giving the black checkers to the leader on one side and the red ones to the other. One side lines up about ten feet away from the baskets, the leader giving each player a checker. If there are any left he keeps them and has the right to throw them after the others have all thrown.

Each one in turn throws his checker into any basket, trusting to luck that it falls into a basket with a number on it. When all have played the leader turns up each basket to see its number and counts the number of checkers in it. If there are two in basket No. 20 it counts forty, if three in a No. 5 basket it counts fifteen. Any number in basket 0 count nothing. Then the score on that side is added up, and the number of checkers that fell outside the baskets is deducted from the total. The other side then lines up and plays as the first did. The order of the baskets must be changed occasionally so that no one knows which is which. The game continues until a certain number—300 or 500, as previously agreed upon—has been reached. The side scoring that number of points first is victorious.

The Huntsman.

One person represents the huntsman. The other players call themselves after some part of a huntsman's belongings. For instance, one is his cap, another the horn, others the powder flask, gun, cartridges, coat, boots, etc.

A number of chairs are arranged in the middle of the room, and there must be one chair less than the number of players. The players then seat themselves around the room while the huntsman stands in the center and calls for them, one at a time, in this way: "Gun!" At once "gun" rises and, going behind the huntsman, takes hold of his coat. "Cap," "Belt," "Shot," "Coat," the huntsman cries, or he may tell a story of adventure, bringing in these names. Each person who represents these articles must rise when his or her name is called and place himself behind the player summoned just before him and hold fast to him. At length the huntsman has a long line behind him and begins to run around the group of chairs, all holding to the player in front and running until the huntsman suddenly cries, "Bang," and all scramble for chairs and sit down as quickly as possible.

Of course one is left standing, and he becomes huntsman.

Hall Tennis.

All that is required for this game is a cord and a toy balloon. Fasten the ends of the cord to opposite walls of a hall or room, having it about the height of the shoulder and drawn tight and even across.

Now use the toy balloon as the tennis ball and the right hand as the racket. The balloon may be struck twice so as to get it in good position before the serve over the line. The game then consists in returning the balloon as long as possible. A failure to return makes a gain of one point for the opponent, and four points make a game. The whole thing seems very simple, but try it and see. Much depends on the way the balloon is struck. A stroke on the underside will send the balloon up above your opponent's head, and a stroke sending the balloon so that the underside will just touch the string sends it curling downward out of the reach of the opponent and back to its starting place.

If the balloon does not pass over the string the point is lost to the one giving the stroke.

A Puzzler.

A very curious number is 142,857, which, multiplied by 1, 2, 3, 4, 5 or 6, gives the same figures in the same order, beginning at a different point, but if multiplied by 7 gives all nines.

142,857 multiplied by 1 equals 142,857.

142,857 multiplied by 2 equals 285,714.

142,857 multiplied by 3 equals 428,571.

142,857 multiplied by 4 equals 571,428.

142,857 multiplied by 5 equals 714,285.

142,857 multiplied by 6 equals 857,142.

142,857 multiplied by 7 equals 999,999.

Multiply 142,857 by 8 and you have 1,142,856. Then add the first figure to the last and you have 142,857, the original number, with figures exactly the same as the start.

An Acorn Tea Party.

An acorn's the usefulest thing that I know—
At least things that grow upon trees.
When children are lonely—bing! into their laps
Pop acorns brought down by the breeze.
A party with acorns for dimes and cups
Is the pleasantest thing to me.
But sometimes while eating they drop on your head,
And sometimes they pop in your tea.

Oh, many's the thing that an acorn will make—
A basket and dishes and bowl,
Not even to mention the cradles and pines
And brownies with faces so droll.
At evening I lay them away in a box
And put my dear brownies to bed,
But when in the morning I seek them again,
Alas, they are shriveled and dead!

Successful Career of Rev. Dr.
A. A. Galvin.

RESULTS OF HIS MINISTRY.

How the Pastor of Loyal Street Baptist Church in Danville Rose to Prominence Through Own Efforts. Honored by His Alma Mater For Worthy Achievements.

Danville, Va.—One of the most energetic and busy men of this section of Virginia is the Rev. Alexander A. Galvin, D. D., of this city. He is president of the Baptist state convention and the highly esteemed and successful pastor of the Loyal Street Baptist church here, where he has thoroughly demonstrated his ability as a safe Christian leader.

The simple but strictly Christian life of his parents served to kindle the fire of hope in young Galvin at a very early age. So in accordance with their best wishes and with his own desire to see the light he was sent to the public school. It is not to be supposed that the schools at that time gave very great advantages, for they do not now afford all the facilities they should.

Yet Alexander struggled on, making the best of what was at hand. He had no knowledge of the fact that it had already entered the hearts of some of the people of his own race to foster a school at which he should be permitted to drink deep drafts from the "Pierian spring" of knowledge or even in after years become the chief exponent of the ideals which were set before him.

After making a profession of religion and being united with the church he felt called of God to the work of the gospel ministry. He entered the Virginia Theological seminary and college at Lynchburg, Va. From this institution he graduated in 1897 with high honors.

The year 1897 was a great year for Rev. Mr. Galvin, for in it he not only took to himself a real helmet, but

DR. ALEXANDER A. GALVIN.

was also called to the pastorate of the Ebenezer Baptist church of Staunton, Va. For almost five years he served the Ebenezer church. It was while there that he in an unassuming way won for himself the rare distinction of not only being one of the best sermonizers of our race, but also one among the very best and most careful pastors to be found anywhere.

From this place he was called to the pastorate of the Loyal St. Baptist church, Danville, Va. His scholarly attainments, work and Christian character soon attracted the attention of the officers and teachers of his alma mater, and they gladly conferred upon him the degree of doctor of divinity. He came to his present pastorate when the church was at low ebb, both as to spirituality and finance. Great debts hung over the church, which discouraged the members and caused the spiritual fire to burn low. But a few months served to show that a master helmsman was at the wheel. The spiritual tide began steadily to rise and continues so to this very day. Along with this was the increase in finance. Thus the heavy obligations have been promptly met, and new life and vigor have entered into every department of the church work.

Thus for eleven years he has gone forth from victory unto victory, and today the Loyal St. Baptist church is one among the best in the land. Under his direction the church has long since purchased and paid for a parsonage on Main street. The interior of the church has been renovated and remodeled.

With regard to the general character of Dr. Galvin, it can be truthfully said that he is always cool, quiet, unassuming, devout, yet strong, deep and powerful.

These characteristics, more than any others, led the brethren of the state to choose him to act as president of the Virginia Baptist State convention during the incapacity of the late lamented Dr. R. H. Bowling. So that now Rev. Dr. Galvin is leader of the Baptist host in the state of Virginia, and a splendid leader he is. All the churches might as well get ready to roll up more money at the next convention than they have heretofore, for Dr. Galvin is an untiring worker.
